

## **Western Power works January 8<sup>th</sup> – March 16<sup>th</sup> 2018**

### **Suppliers and Service Providers contacted by Western Power/Kier November 2017**

All those highlighted below have been contacted with details of the road closure and works at least once. There are many other discussions in relation to residents, health care services and carer access but the list enclosed is in relation to informing services that work with the Falmouth business community to assist with their planning. The list is not intended to be exhaustive and thus Western Power/Kier would urge traders to advise all their suppliers and partners of the works and timings.
